

## Press Release

Date: July 13, 2011

# Celina Insurance Helps Renew Montgomery Field

**Celina, Ohio/USA** – (7/13/11) Bill Montgomery, President and CEO, is pleased to announce that Celina Insurance Group will donate \$5,000 to assist with the refurbishing of Montgomery Field. The companies' Boards of Directors approved the donation at their May meeting. The Mercer County Civic Foundation administers the Montgomery Field Replacement Fund.

The purpose of the Montgomery Field Replacement Fund is to maintain the quality of the field for players, while also preserving an attractive appearance for visitors. Last week the Replacement Fund made possible the repainting of the press box, concession stand, backstop and dugouts. The most noticeable enhancement is a new welcome message which was painted on the press box. The bulldog image on the infield side of the press box was also repainted.

When asked about the donation Montgomery commented, "The field is a reflection of our community. It's important that visitors see our best face. On July 23-29, the ACME State Tournament will bring hundreds of fans to the Celina area. If these guests leave with a positive impression of Celina's facilities, they may be inclined to return and spend time and money in the area."

Founded in 1914, Celina Insurance Group is a family of mutual property and casualty insurance companies. Celina underwrites auto, non-standard auto, home, commercial auto, commercial property, and casualty insurance, as well as umbrella and farm coverage in eight Midwest states. Celina Insurance Group is represented by some 600 agents and employs 166 people.
