

## Press Release

Date: December 20, 2010

### Tri-Star Students Take Working Field Trip to Celina Insurance Group

**December 20, 2010, Celina, OH-** On Friday, December 3, Celina Insurance Group hosted the Tri-Star senior graphics communications class for the afternoon, allowing students to learn and work in the company's print shop.

Print Supervisor Terry Rammel coordinated the working field trip with Tri-Star teacher, Lisa Allmandinger. The students first watched a demonstration on how the company's AB Dick 9500 ink press and high-speed digital printer operate. After the overview, students used the equipment to print notepads with artwork on them to promote Tri-Star.

Rammel comments, "Many people are surprised to hear that Celina Insurance Group has an in-house print department. We use our presses for several community-related projects throughout the year, but the Tri-Star visit was unique because it allowed the students to work with the equipment and create a product."

Allmandinger adds, "It was rewarding for the students to really use the machines and create printed pieces. It's one thing to learn about a concept in the classroom and a whole other to physically see it in action. This is one of the guiding principles behind Tri-Star."

The goal of Tri-Star is to help students develop skills that will be valuable throughout their lives. Likewise, these planned study programs are designed to provide students with the technical and social skills needed for employment.

Founded in 1914, Celina Insurance Group is a collection of mutual property and casualty insurance companies. Celina underwrites auto, non-standard auto, farm, home, commercial auto and property insurance, as well as umbrella and casualty coverage in eight Midwestern states. Celina Insurance Group is represented by some 600 independent agencies and employs 168 people.
